

Honey, Honey, Honey...

What could be better than honey on toast or in your tea in winter?

This is an opportunity to order fresh, local honey from the Cathedral Ranges, about 100 km north-east of Melbourne. Cathedral Valley Honey is a small business located in Taggerty.

The honey is:

- Non-processed, straight from the bees,
- Cold extracted AND
- Comes direct from the beekeeper.

I have purchased this honey for years, for our family and some families at Essex Heights. This is the first time the beekeeper has offered to do a fundraiser with us. It is the best honey I have ever tried and our whole family loves it. If you have any questions, please email me (Stef, sscanning10@gmail.com).

To order, please fill in the order form and send it back to school with the money (cash only) **by Friday 22 April**. Delivery will be in late May to your child's classroom.

REMEMBER: For all the goodness of pure honey, send in your order by Friday 22 April.
